

## CorelDRAW® X3: Level 2

*Course length: 1.0 day(s)*

### Course Description

In CorelDRAW® X3: Level 1, you created, edited, formatted, and printed basic drawings. You now have a need to create a complicated brochure for a client. In CorelDRAW® X3: Level 2, you will use CorelDRAW X3 to create the brochure and enhance its appearance with advanced colors, charts, graphics, and formulas.

### Target Student

This course is designed for students who are already graphic designers, or people transiting into a design job, or taking on design responsibilities. It is also meant for students who have some experience with previous versions of CorelDRAW X3 and want to use CorelDRAW X3 to create illustrations, logos, advertisements, or other graphic design documents.

### Prerequisites

Students are expected to have some basic knowledge of PC, like, basic understanding of the computer's operating system, how to launch an application, create and save files, copy files from CDs and other media, and should have taken ElementK's CorelDRAW X3: Level 1 course.

### Performance-Based Objectives

Upon successful completion of this course, students will be able to:

- work with layers to organize objects.
- create a technical drawing using advanced tools.
- use advanced techniques in CorelDRAW for text manipulation.
- work with vector and bitmap graphics.
- simplify tasks using VBA macros.
- use advanced output options.
- work with photos.
- finalize a brochure for the web.
