## Adobe® Illustrator® CS4: Level 2

*Course length: 1.0 day*

### Course Description

You probably used Adobe Illustrator to create simple illustrations and logos. However, you may need to create complex illustrations, print documents without any errors or color mismatches, or prepare illustrations for the web. In this course, you will create complex, robust illustrations that go beyond those you could create using Illustrator's basic tools.

### Course Objective

You will create complex illustrations, manage color across a range of devices, work with graphs and variables, control how illustrations appear on print and the web, and preview them on mobile devices.

### Prerequisites

Before taking this course, you should complete the Adobe® Illustrator® CS4: Level 2 Element K course, or have equivalent knowledge.

### Performance-Based Objectives

Upon successful completion of this course, students will be able to:

- create complex illustrations.
- enhance complex illustrations.
- create a vector version of a raster graphic.
- create special effects.
- work with graphs.
- work with variables.
- prepare documents for composite and commercial printing.
- export graphics for the web and mobile devices.
