

Microsoft® Office Word 2016: Part 2

Course length: 1 day(s)

Course Description

After you master the basics of using Microsoft® Word 2016 such as creating, editing, and saving documents; navigating through a document; and printing, you're ready to move on to tackling the more advanced features. These features enable you to create complex and professional documents with a consistent look and feel. They also enable you to automate tedious tasks such as preparing a letter to send to every customer of your organization.

Creating professional-looking documents can help you give your organization a competitive edge. Implementing time-saving features such as document templates and automated mailings helps your organization reduce expenses. Mastering these techniques will make you a valued employee in your organization.

Course Objective

You will learn to create and modify complex documents and use tools that allow you to customize those documents.

This course covers Microsoft Office Specialist exam objectives to help students prepare for the Word 2016 Exam and the Word 2016 Expert Exam.

Prerequisites

To ensure your success in this course, you should have end-user skills with any current version of Windows®, including being able to start programs, switch between programs, locate saved files, close programs, and access websites using a web browser. In addition, you should be able to navigate and perform common tasks in Word, such as opening, viewing, editing, and saving documents; formatting text and paragraphs; format the overall appearance of a page; and create lists and tables.
