Adobe® Illustrator® CS6: Part 2

Course length: 1.5 day(s)

Course Description

You have created simple artwork using the basic drawing and painting tools available in Illustrator. You now want to create complex artwork using advanced tools, options, and effects. In addition, you want to ensure that your artwork is ready for commercial printing and also save it for the Web. In this course, you will draw complex illustrations, and enhance them using various painting options. You will also use her techniques using painting tools, manage colors, format type, work with effects, prepare artwork for commercial printing, and prepare graphics for the web.

Target Student:

This course is intended for designers, publishers, pre-press professionals, marketing communications professionals, or people taking on design responsibilities who need to use Illustrator to create illustrations, logos, advertisements, or other graphic documents.

Prerequisites

To ensure your success in this course, you should be familiar with basic computer functions such as creating folders, launching programs, and working with Windows. You should also have basic Windows application skills, such as copying and pasting objects, formatting text, and saving files.

Familiarity with basic design terminology, such as palettes, color modes, shapes, text, and paths is highly recommended.
